Integrated**

Stop email attacks in their tracks

Phishing, ransomware, credential harvesting, quishing, and spam are just some of the email-based cyber threats that you need to defend against. More than 90% of cyberattacks start with email¹, and many are designed to evade Microsoft's defenses. Optimize Microsoft 365 protection in minutes with AI-powered detection from Mimecast — the leader in email security for 20 years.

Mimecast + M365 = unparalleled email protection

Mimecast Email Security Cloud Integrated is an Integrated Cloud Email Security solution that enhances and augments M365's email security protections, layering on AI-powered, best-in-class detection capabilities to block the most sophisticated email attacks. You get a solution with simplified administration that's optimized out of the box. Your organization gets world-class protection for the top attack vector — email.

Key Benefits:

- Complete protection for M365
- Immediate deployment
- AI-powered detection, world-class efficacy
- Simplified administration, customizable controls
- Optimized protections out of the box
- AI-powered email warning banners
- Real-time threat intelligence on blocked threats
- One-click remediation
- Removal of threats Microsoft misses
- Extensibility through rich APIs

The Mimecast Difference Why Compromise?

- World-class email security efficacy
- 42K+ Email Security customers globally
- AI-powered detection
- 20 years of experience
- Experts at securing M365
